

The complete solution for safe isolation, the Martindale VIPDLOK150 Lock Off Kit contains the VI-15000 1000V AC/DC voltage indicator, PD690 proving unit, along with a complete lock off kit, supplied with soft carry cases.

Nothing is more dangerous than trusting a defective voltage indicator to test for a dead circuit. Safe electrical work requires the use of a voltage indicator that has been proved with a proving unit before and after use.

The Martindale VIPD150 contains the VI-15000 voltage indicator and the PD690 proving unit, enabling you to comply with health and safety recommendations for safe working.

The 16 piece lock off kit contains the following items:

- 1 x Padlock with unique key
- 1 x Steel safety hasp, with space for up to 6 padlocks
- 1 x Green mini MCB lock
- 1 x Yellow mini MCB lock
- 1 x Blue medium MCB lock
- 1 x Large red MCB lock
- 1 x Red fuse holder lock
- 1 x Red spring MCB lock
- 1 x Yellow spring MCB lock
- 5 x Danger tags which can be overwritten
- 1 x Black marker for writing on Danger tags
- 1 x TC55 soft carry case
