

## Socket & See FFCB1140 UK Dual Voltage Fuse Finder Kit

### Description

The easy way to find fuses and circuit breakers with the Socket & See FFCB1140 UK

In operation, as the fuse finder detects the correct fuse or breaker, the indicator lights climb the bar graph. This is accompanied by an increase in the frequency of a sound pulse – two indicators to ensure easy, correct fuse finding.

### Features of the FFCB1140 UK

- Test lead kit included for connection to socket outlets – DBs – lighting circuits – 110V (yellow plug) and 230V (blue plug) systems
- Dual voltage operation 100 to 250 VAC (50-60Hz)
- Uses new auto scan – no fiddly controls to adjust
- Works equally well with circuit breakers or fuses
- Audible find tone combines with a new bargraph display

### What's Included?

- Socket & See FFCB1140 UK
- FFCB TXA Easy Fuse Finder Transmitter
- FFCB RCVA Easy Fuse Finder Receiver
- Mains lead
- Fused test leads with probes and croc clips
- IECP 16Y IEC plug to 16A (2P+E) 110V Yellow BS4343 industrial plug
- IECP 16B IEC plug to 16A (2P+E) 230V Blue BS4343 industrial plug
- Instruction manual
- Carry case for kit
